Lab Programs: Week 3

1. Develop a college website using HTML5 semantic tags to display the college header, navigation menu, departments, latest news and footer.

Code:

```
<!DOCTYPE html>
<html>
<head>
    <title>Vasavi College of Engineering</title>

    <style>
        body {
            margin: 0;
            font-family: Arial, sans-serif;
            background-color: #f2f6f8;
        }

        /* Header */
        header {
            background-color: white;
            padding: 20px 10%;
            display: flex;
            align-items: center;
            gap: 30px;
        }

        header img {
            width: 130px;
        }

        header h1 {
            color: #064b6b;
            margin: 0;
        }

        header p {
            margin: 8px 0;
        }

        /* Navigation */
        nav {
            background-color: #d5dde3;
            padding: 15px;
            text-align: center;
        }

        nav a {
            color: #064b6b;
            text-decoration: none;
            margin: 15px;
        }
```

```
        nav a:hover {
            color: red;
        }

        /* Main Content */
        main {
            width: 85%;
            margin: 20px auto;
        }

        section {
            background-color: white;
            padding: 20px;
            margin-bottom: 20px;
            border-radius: 5px;
        }

        h2 {
            color: #064b6b;
        }

        /* Departments */
        .departments {
            display: flex;
            gap: 15px;
        }

        .department {
            background-color: #e6f0f5;
            padding: 15px;
            width: 30%;
        }

        /* News */
        .news {
            padding: 10px;
            border-bottom: 1px solid #ccc;
        }

        /* Footer */
        footer {
            background-color: #064b6b;
            color: white;
            text-align: center;
            padding: 20px;
        }
    </style>
</head>

About Me

I am 3rd year BTech Computer Science student studying at Vasavi College of Engineering. Interested in exploring new technologies like Artifical Intelligence and Machine Learning. Building intelligent and useful web applications that help solve problems.

Personal Information

Name	Anjana
Date of Birth	07-07-2007
Gender	Female
Nationality	Indian
Languages	English, Telugu, Hindi

Educational Qualifications

Qualification	Institution	Year	CGPA / Percentage
B.Tech CSE	Vasavi College of Engineering	2028	9.77 CGPA
Intermediate	Turito Junior College	2024	98%
10th Class	Santinos Global School	2022	93%

Skills

- HTML, CSS, JS
- Python, C, Java
- SQL
- Computer Networks

Projects

Metrik-CNC Tool Wear Prediction and scrap risk analysis

A website which predicts tool wear early and calculates RUL (remaining useful life) based on the training data .

Market AI Suite

An AI-powered marketing assistant for generating marketing ideas.

Hobbies and Interests

- Coding
- Sports
- Art
